▼ Objective

As a passionate and driven software enthusiast, I am excited to express my keen interest in learning more about computer programming and artificial intelligence (AI). A very passionate person who strives to learn new skills and embraces challenge are personal traits which have been used to describe myself by my colleagues and managers. I am a good problem solver who is seeking an opportunity to take my knowledge to deeper level in the world of AI, hoping it will allow me to contribute to a dynamic development team and leverage my skill to create innovative and high-quality software solutions.

▼ Projects and Experience

Have created basic projects using JavaScript, HTML and CSS, which includes but are not limited to:

- Portfolio
- Head Counter,
- Random Password Generator, and
- Weight Converter

Harris Academy Greenwich [Eltham, UK]

- Level 3 BTEC: D* D* D* in Sports LEVEL 2 and 3
- G.C.S.E. – 10, including English (B) and Maths (B)

▼ Team Player

My involvement in various sports as a player and a sports coordinator has made me a good team player. Sports I have been involved in, include; football, rugby and hockey.

▼ Leadership

During my time as a sports coordinator, my school was able to carry out its sports day at the Crystal Place Sports Centre for the 1st time. This was successful as my team and I were able to communicate fluently with each other, as well as pastoral and tutors from every year group in school.

Furthermore, under my captaincy, my rugby team were able to win Devo Cup (a small cup played in honour of a late player) for the first time ever in 2014.
